All State and County Records should always be printed or written on this Paper, as the chemicals inserted in the pulp not only prevent grasure or transfer, but make it lasting as time.

For Southern Climates it is excellent, and much superior to any other; as the moistness of the climate does not destroy it, the properties inserted in the pulp being a preventive. In all the southern States, Cuba, the West Indies and the Centrel American States, no public records can be kept over 20 years.
